

LAPTOP BATTERY REPLACEMENTS

IF YOU'RE EXPERIENCING CHARGING PROBLEMS WITH YOUR LAPTOP, it could be that your battery is defective and needs to be replaced.

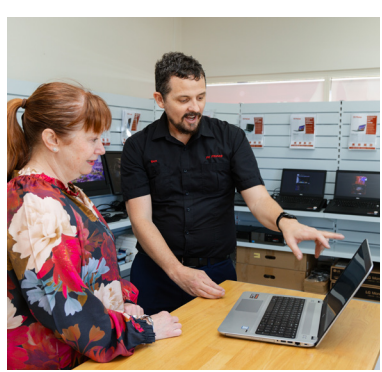

WHEN DO I NEED TO REPLACE MY BATTERY?

If your laptop is getting hot when it's operating, this could be a sign your battery is dying. You could also notice that the fans in your laptop are working harder and therefore making more noise.

SUCCESSFUL LAPTOP BATTERY REPLACEMENTS FROM THE EXPERTS

If there is a reason your laptop battery is no longer charging, our experts will find it. PC Pitstop has been repairing laptops for over 20 years.

WINDOWS AND MACBOOK BATTERY REPLACEMENTS

If you're experiencing any of these problems with your laptop, it could be that your battery is defective and needs to be replaced. Simply bring it into PC Pitstop and one of our qualified technicians will diagnose the problem and give you a no-obligation quote for a laptop battery replacement.
