STORE, SHARE & BACKUP WITH A NAS BOX

ECONOMICAL & RELIABLE FILE STORAGE DEVICE

A NAS box provides a simple solution for backing up laptops and desktops. Store everything in one easy to manage space with easy backup to the cloud.

BACKUP YOUR DATA

A True Backup Solution

Trust your precious files and data with a NAS box. (Network Attached Storage.) Better than traditional external hard drives, the NAS box offers a more cost-effective storage solution with powerful built-in drive failure protection. Enable comprehensive backups and secure Snapshot technology for a reliable backup and disaster recovery solution. Snapshots record the state of your NAS, making it easy to revert back to a previous state, keeping your data secure from attacks like ransomware.

In the event of a system crash or accidental file deletion, you can quickly restore the system to its normal state.

BOOST PRODUCTIVITY

Centralised File Management

The NAS box allows centralised file management on the NAS, connected devices, computers and connected clouds. One storage location for everything, making data management more easily, while saving time. Your NAS box comes with two hard drives that constantly replicate each other for added redundancy. Pitstop IT is a team with their eyes on the horizon of the future for the benefit of your business.

Pitstop IT is powered by PC Pitstop, your 7x Port Macquarie Business Awards winning team.

WE HELP SOLVE YOUR BUSINESS TECH PROBLEMS

IT solutions that work specifically for your business from purchasing the right equipment to managing your IT environment.

Qualified Team
Working with hundreds of local businesses like yours to implement IT systems.

Priority Response
Reliable IT support that allows your business to quickly get back on track.

Great Proactive Support
Resolving more than just issues, we identify and repair the underlying cause.
